

Support Coaching and Mentoring

Audience

This workshop is for educators who want to work with an Apple Professional Development Specialist on specific skills or teaching strategies with Apple devices.

Description

Coaching and Mentoring sessions are structured for individuals or small groups of teachers during preparation or planning periods to support planning and implementation of new skills. APD Specialists work with your educators to strengthen existing skills, develop and/or co-deliver lessons.

Learning objectives for this workshop include:

- Support new and existing technology skills
- Provide feedback on teaching strategies
- Co-develop and deliver new learning activities

Details

- Workshop length: 1 day (6 hours)
- Maximum number of participants: up to 5 in a single working group
- Site resource/technical requirements:
 - Wireless Internet access
 - Speakers
 - Projector and screen
 - iOS devices with default settings; or Mac computers with default System Preferences
 - For optimal learning, provide participants with:
 - the same model of the same device
 - devices assigned for the year
- Individual participant requirements:
 - An activated iOS device (second-generation iPad or newer, or fourth-generation iPod touch or newer), with the latest version of iOS; or a Mac with the latest version of OS X
 - A personal Apple ID
 - Basic iPad or Mac navigation skills and basic skills with any Apple apps intended for coaching

Failure to provide required elements will reduce the accomplishment of the stated objectives.
